

# COMP0016 Systems Engineering Bi-Weekly Report 7

**Project Title:** Hospital Surveys

**Team Number:** 17

**Team Members:** Min Yen Lau, Bahdan Kapionkin, Shengtong Jiang

**Date:** 14 March 2020 – 27 March 2020

## Report Overview:

Over the course of these two weeks, we worked towards the final deliverables of the project, and did testing of the web-app to make sure the functionalities of the web app was working fine.

Due to pandemic, however, many team members were away, and progress have not been the most efficient over these two weeks.

## List of Tasks Completed:

Task Category	Description	Priority	Status
Testing	We used multiple testing strategies and stress tests in order to test the functionalities of our web-app	High	Completed
Project Website	We wrote a lot of the content for the project website over these two weeks.	High	Completed
Video Recording / Editing	We recorded and edited the client video and full technical video.	High	Completed

**Estimate if project is running on time:** Yes

## Plan for the next two weeks:

- Prepare for the code review with project partners.
- Keep testing our web-app, to ensure all the functionalities of the web-app are working fine.
